Dr. J. Van Wogenen.

Darlington, Wis., Feb. 19.—Dr. James Van Wogenen, an old resident, died yesterday, aged 82.

Wisconsin News in Brief

The following is an extract from a letter received by the city council of Oshkosh from a man on whose property a tax notice had been served: "To the honorable council of the city of Oshkosh—Dear Sirs: From E. W. Welsbrod got I a tax certificate. After it I shall pay \$1.97. It is very curious to me about that. Different times I made petitions to the honorable C. C. for the sake of exemption of tax-paying. It seems to me that I forgot it to do in the due time. Excuse, if I reach in herewith a petition for exemption of it. The one reason for it is: I am almost 2 years a supernumerary pastor. I receive from the Germ. Ev. Synod of N. America a pension of 150 Doll. yearly. I have to pay 48 Doll. for house rent; 102 Doll. are not enough to support my and my wife's life."

The following deaths have occurred: August Ringling, Sr., of Baraboo,

father of the Einglings, who run the circus, aged 71; Charles Miles, who lived near Richland Center and was the oldest man in Richland county, aged 97; Mrs. Christiana Schoch of Manitowoc, aged 78; Mrs. Fredricka Haesa of Waterloo, aged 56; Mrs. Victor Albert, of Appleton, aged 52; Edward Powers, of Appleton, aged 28.

Attorney H. G. Ellsworth of Rice Lake, who conducted the recent investigation at Waupun, was in Madison yesterday to present the governor with his bill for expenses and services in the investigation. The expense bill was allowed and the governor took the bill for services under advisement. Mr. Ellsworth refuses to make any statements in regard to the investigation.

Michael Walsh of Appleton has been given sentence to the workhouse for thirty days for assault. The case will be used to test the constitutionality of the state workhouse law. As the law stands at the present time the sheriff has charge of all prisoners confined in such institutions and it is claimed that this is unconstitutional.

Miss Elnora Andrews has been appointed an assistant in the postoffice at Evansville. Miss Andrews is a candidate for postmaster of that office under the present administration. Mr. Hoskins, the present incumbent, has announced his intention to leave the office March 1, no matter if a successor has not been appointed.

John D. Olson of Shell Lake, has had to pay the county \$125 in fines and costs on the charge of breaking the game law by shipping game outside of the state. The American Express company had charge of the game in question and proceedings have been commenced against the company for accepting it.

The jury at La Crosse in the case of the Whitehouse department store against the Edison Electric company failed to agree on a verdict after being out twenty hours. The case was a suit for \$54,000 damage by fire claimed to have been started by improper insulation.

A meeting of the pastors of Appleton, will be held in a few days to organize an anti-saloon league. A state conference of the league is to be held in Madison Thursday, and it is thought that arrangements will be made to maintain a lobby at the capitol.

The following weddings have taken place: Miss Louise Schwander to Henry Krueger, both of Brillon; Miss Alice Trow of Merrill to Capt. D. A. McDonald of La Crosse; Miss Bertha D. Huefner to Alexander J. Horlick, both of Racine.

Capitalists are expected in Oshkosh within a few days to organize a company to build an inter-urban electric road. Mr. Tillotson has been in Chicago in the interest of the road and says that the money for the project has been obtained.

Fred Gilkey, formerly of Oconto, who disappeared some years ago and was supposed to have been murdered, has just been heard of in British Columbia. He is a prosperous metal prospector and owns an interest in a valuable group of mines.

A barbers' union will be organized at Sheboygan by M. B. Whitaker, state organizer. There are about thirty men in the city who are entitled to become members of a union and there is a strong sentiment in favor of the scheme.

Judge S. D. Hastings, of Green Bay, had his hands badly burned by an explosion of gas from a stove used to heat his office. The wind blew out the flame and when the judge started to light it again it exploded.

As a result of the quarrel between the council and the Water, Light and Power company. West Superior promises to be without lights in the future, many having already been turned out.

John Potterfield of Marinette, lost his home by fire yesterday morning. The family were forced to flee from the building in their night clothes, and everything was lost. The loss was \$2,500.

Daniel Paschen while doing some varnishing in a beer vat for Schulte & Dobler of Boscobel yesterday was badly burned by the varnish becoming ignited.

Dr. L. G. Armstrong of Boscobel, a well known physician of that part of the state, celebrated the thirty-ninth anniversary of his professional career Wednesday.

The Green Bay Carriage company has made an assignment. The assets are \$22,000 and are greater than the liabilities. The cause of the failure is the difficulty in making collections.

A number of young men of Green Bay have announced their intention of going to Idaho to take up homesteads. They will go in a body and form a settlement.

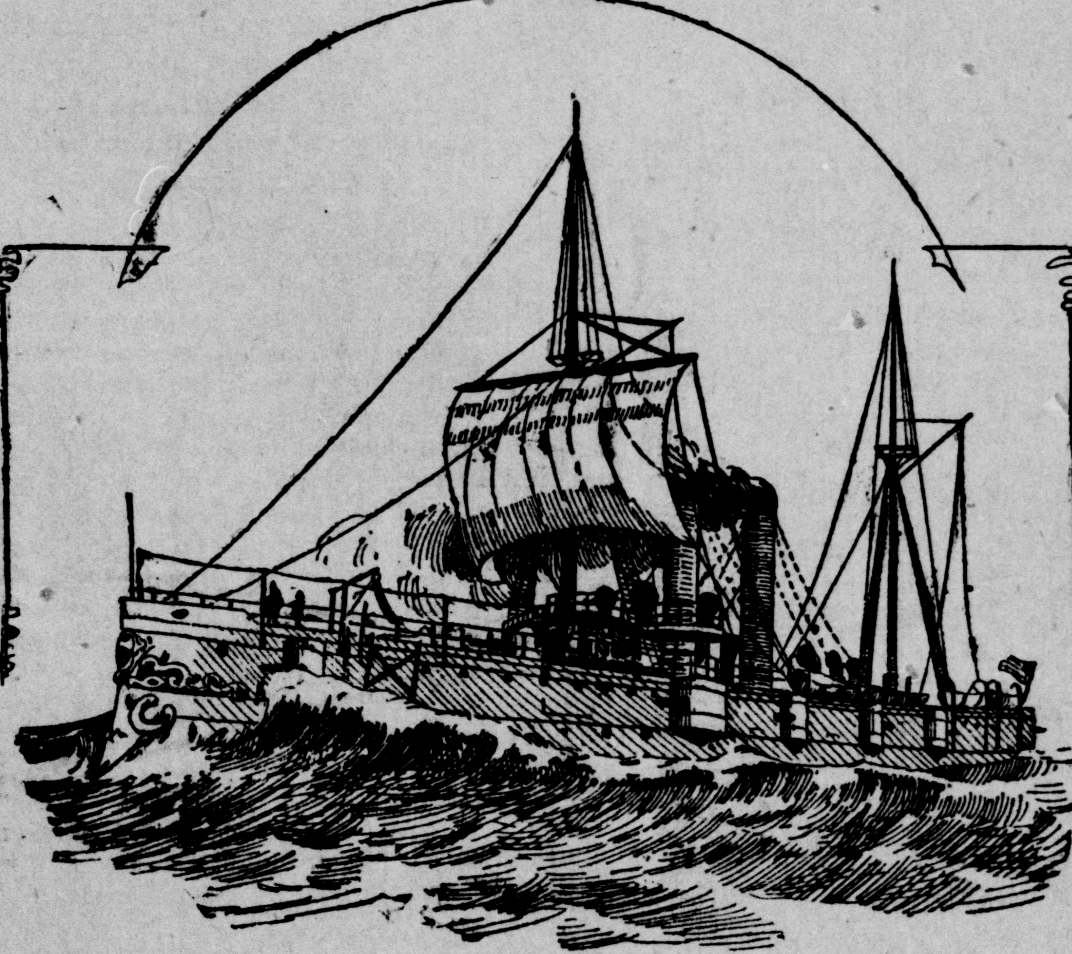

Judge Dick has quashed proceedings brought against H. T. Montell of Fond du Lac, charging him with obtaining money under false pretenses.

A successful farmers' institute was held at Omelaska yesterday. The conductors said that it was the best attended of any institute this year.

Aaron Bennett, under arrest at Virgo, on the charge of highway robbery at Deota, waived examination and was bound over.

The Miller & Startz firm of Sun Prairie has dissolved partnership. Mr. Miller will operate the business alone in the future.

### BLOODY WORK DONE AT PHILADELPHIA

#### BRUTAL DOUBLE MURDER COMMITTED TODAY.

Jealous Man Kills His Rival and a Woman, and Seriously Wounds a Third Woman, in a Fit of Passion—Father Slain Before Daughters Eyes.

Philadelphia, Feb. 19.—[Special]—A double murder was committed here last night, and a third death may also follow.

George Bernhardt shot and killed Reinhardt Loser and Hannah Reinhardt. He then turned and seriously wounded Annie Reinhardt.

Bernhardt was jealous of the attentions shown the girls by Loser, and in an insane fit of passion, killed them.

Murder Near Columbia, S. C.

Columbia, S. C., Feb. 19.—[Special]—At Peak, a small place near here, there is great excitement over a murder committed today.

Henry Haliwanger shot Noah Koons, killing him instantly.

Koons was Haliwanger's father-in-law. Haliwanger and his wife had trouble, and the woman went home. Her father, Koons, attempted to persuade her to desert Haliwanger, when the latter came for her. This incensed Haliwanger, and he killed Koons before his daughter's eyes.

For Non-Support of His Family

Viroqua, Wis., Feb. 19.—In county court today Bert Jonnies was found guilty of non-support and desertion of his wife and child.

### Aluminium For Household Utensils.

Undoubtedly the most important use to which aluminium will be put will be for culinary and household utensils. Being practically incorrodible, it is free from every form of poison and will not taint food. It is light to handle and a better conductor of heat than other metals.

The recent announcement that contracts had been signed for the delivery in England of 1,000 tons of crude aluminium of American manufacture makes prominent the fact that this remarkably useful metal is now being produced in this country in large and constantly increasing quantities. Ten years ago no pure aluminium was manufactured in the United States, and in Europe it was produced at a cost that rendered it valueless to the mechanical world. Today it is the rival, and the successful rival, of both copper and steel. In 1896 the United States alone produced 1,800,000 pounds of the crude metal, a third of the total output of the world. In 1886 the market price of the metal was \$1 an ounce; today it is less than 50 cents a pound.

Aluminium is an exceedingly abundant element in nature. It is obtained in the form of an oxide of bauxite, of which there are large deposits in this country.—Brooklyn Citizen.

### The Witherly of the Pretty Matinee.

Matinees are made of the daintiest flannel, both striped and plain, light cashmeres, henriettes and India silks, and are profusely trimmed or made plainer, according to the use one wishes to make of them. For a useful sack to be worn for lounging, sewing or any light housework, the elder down, made loose fitting, bound with satin or moire ribbon, is perhaps the most comfortable and practical, as it washes well and with careful handling makes a durable garment. For the afternoon they are made quite elaborate and worn with a pretty dress skirt, usually silk or satin, when a lady is quite well enough dressed to see callers at any time other than her regular "at home" day, when, of course, she is rightfully expected to be gowned for the occasion.—Woman's Home Companion.

### ZOLA'S TRIAL IS ENDED

#### Testimony Is All In—Witness, For the Defense Says He Can Clear Matter Up.

Paris, Feb. 19.—[Special]—The taking of testimony in the Zola case was closed today. Today's proceedings are full of dramatic incidents concluding with the statement by Col. Picquart, a witness for the defense, that if he was given the privilege he could clear away the mystery surrounding Dreyfus' conviction.

### STRUCK BY A CYCLONE

#### New Orleans Visited by a Wind Storm This Noon, and Great Damage Is Done.

New Orleans, Feb. 19.—[Special]—A cyclone struck this city at noon. One hundred buildings were wrecked, and one fatality has been reported thus far.

### COCKING MAIN HELD

#### Local "Sports" Fought Chickens at Busseyville and Plan Another Engagement Later On.

Local game cock admirers are smiling to themselves over the fact that they attended a quiet little cocking main near the shores of Lake Koshkonong unbeknown to the Janesville police. Thirty-five birds entered the pit and before the "festivities" came to a close over half of the numbers were dead while the majority of the others were suffering from wounds. Local birds were entered while several Janesville "sports" were there to witness the fight and to see that the Bower City birds were given fair play. According to one who was there, the affair must have been a success, from a sporting standpoint, for when the first two birds were dropped in the pit, one hundred men and boys stood about, all eager to witness the fun. The affair took place at Busseyville. Birds were entered from Janesville, Port Atkinson, and other towns, so that by 11 o'clock the referee—a Janesville man—stated to the silent crowd that the sport would begin, and that order must be observed. After the festivities closed he said all must to their homes in as quiet a manner as they arrived. One man from Port Atkinson by the name of Roberts mourned the loss of twenty birds. A local "sports" report that Janesville was well represented and so successful was the affair that another one is being planned to be pulled off in the near future in or near the same place.

### VIZCAYA AT NEW YORK

#### Spanish Man of War Will Not Come Into The Harbor Before Sunday.

New York, Feb. 19.—[Special]—The Spanish battle ship Vizcaya is, still lying off Sandy Hook, enveloped in a heavy fog.

The story of an alleged Cuban plot to dynamite her was circulated but it is not believed. It is not believed that the vessel will enter the harbor before Sunday.

### GUS. LARSON IS DISCHARGED

#### He Was Held To Be of Sound Mind by the Examiners.

Monroe, Wis., Feb. 19.—Gus. Larson was discharged from custody by Judge Becker. This action was taken upon the recommendation of Drs. Steiger and Confer, who had been appointed to examine the man and report as to his sanity. Larson was committed to the Mendota hospital by the county court of La Fayette county some time ago. The authorities sent him to the Green county asylum. Superintendent R. C. Whitcomb, after noting the man's condition, made application to have him discharged, and the case was decided as above noted.

### DONAHUE PROPERTY IS SOLD

#### Father Is Insane and Mother and Children Get the Estate.

Property to the valuation of \$700 was sold in this city today for the benefit of Mrs. Daniel M. Donahue and children. The land in question was in Smith's addition to Janesville. Donahue who moved from this city to Baraboo went insane some time ago and are now being unable to care for his property or family the property was sold for the benefit of the wife and children.

### FISHERMEN SAID THEY SAW WIRES

#### Another Sensational Story Sent Out.

#### WILL TELL TALE TO INQUIRY BOARD.

Say the Line Ran From the Dry Dock to the Warship—Evidence Accumulates That Many Spaniards Anticipated the Disaster—If Sigsbee Is Made Scapegoat, All Navy Officials Will Resign Their Commissions.

Havana, 3 p. m. Feb. 19.—[Special]—A startling story of finding a wire running from the dry dock to the Maine is told by two fishermen.

These men intend to tell what they know to the board of inquiry. Evidence accumulates that many Spaniards anticipated the blowing up of the vessel.

The radicals celebrated the disaster by opening many bottles of champagne.

Sigsbee For Scapegoat.

Washington, Feb. 19.—[Special]—It is stated that Captain Sigsbee will be made a scapegoat for the Maine disaster in order to avoid war.

If this is done it is stated that every naval official will resign his commission.

Havana, Feb. 19.—[Special]—American divers will work alone today in examining the hull of the Maine.

The Spanish wanted to make a joint examination, but Captain Sigsbee and Consul General Lee objected.

The divers will make an attempt to recover the bodies and valuable papers first.

Afterward, an examination to find the cause of the accident will be made.

Captain Sigsbee says the Spanish can make an examination after he gets through if they want to, but not before.

No Indications of Treachery.

Washington, Feb. 19.—[Special]—There are no new developments this morning in the Maine case. The situation is unchanged, and the opinion that the horror was an accident, seems to be growing.

Secretary of the Navy Long claims to have no definite knowledge other than that the ship blew up. He says there is no indication of treachery.

An official report of the causes of the explosion is not expected until after the investigation, which will take several days at least.

#### What Thompson Saw.

Key West, Feb. 19.—[Special]—Frank Thompson, an officer of the Maine is reported as having said that he saw a mysterious black boat floating around the Maine the evening before the explosion.

The Lighthouse tender Mangrove arrived this morning from Havana bringing the wounded members of the Maine's crew. Five of the twenty-six men in the Havana hospital have died and eleven remain here.

Photographs of the wreck have reached here. They show twisted iron beams and heavy steel plates bent like pieces card board. The massive steel turrets and other heavy iron work are one knotted mass.

#### May Use The Argonaut.

Baltimore, Feb. 19.—[Special]—The submarine wrecking boat Argonaut will probably be sent to Havana to investigate the cause of the Maine horror. The officials could be taken under water by this boat, and see with their own eyes how the battleship was blown up.

## EDITOR LIBBY SAYS HE WILL SAY AMEN

CANDIDATE TELLS OF POST  
OFFICE FIGHT.

Thinks His War Record, and Long Residence in Evansville Should Count, But Will Not Stand in the Way of Any Good Republican Tax Payer—His Letter.

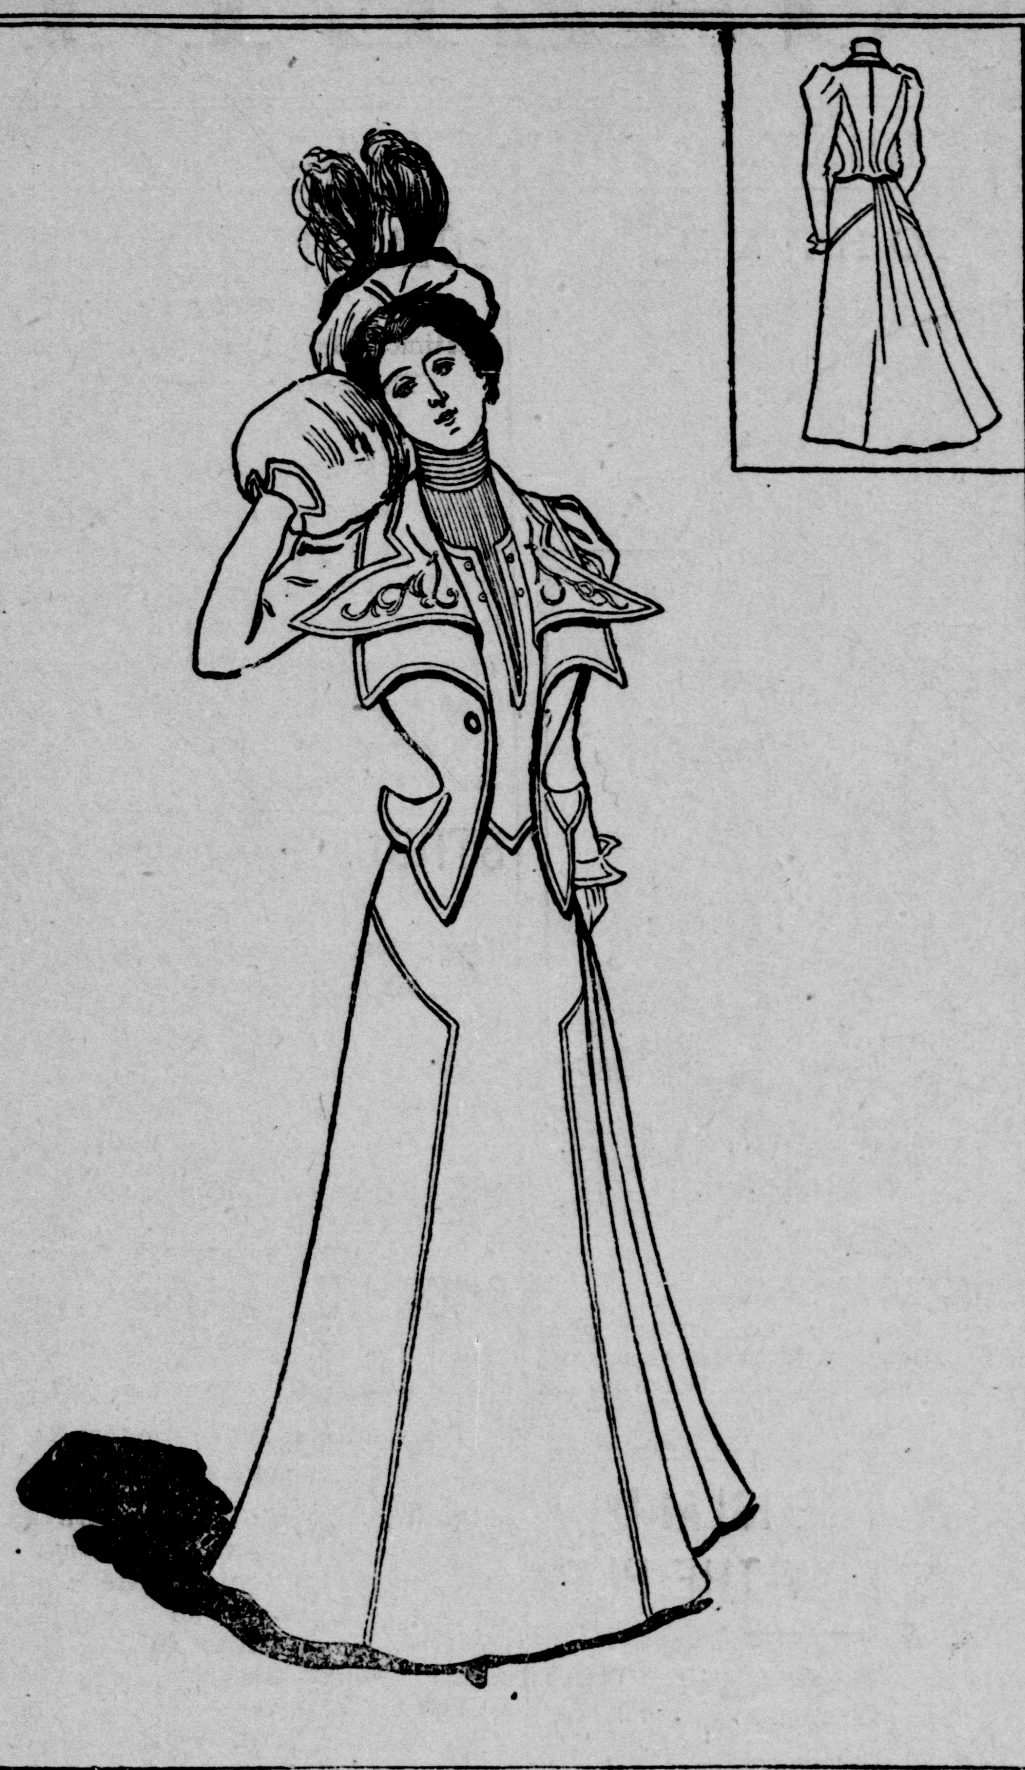

Editor Libby, of the Evansville Enterprise, comments on the fight for the Evansville postoffice, and his own candidacy as follows:

"There is much surprise and disappointment that the appointment of postmaster in this city still remains unsettled. Mr. Jas. Hoskins, the present incumbent, of whom all speak in the highest terms and are well pleased with his very faithful administration, and as far as the public are concerned are satisfied with his continued service, but he has sold his residence here with the full determination of moving to California and making his home near his son, who is a professor in a college there, tendered his resignation to the department some time since and is personally anxious to be relieved. Letters were received here from Hon. H. A. Cooper, dated Jan. 15, 1898, at Washington, stating that President McKinley had virtually taken the matter wholly into his own hands and would appoint Miss Elvora Andrews, as a reward to her brother Byron, who had much pleased the president by writing his biography and other services during the last presidential campaign, and letters from other sources at Washington have announced that Miss Andrews' appointment would take place at once, but still the actual appointment seems to rest as uncertain and mysterious as one, two or three months ago, giving us every reason to believe and think that there is some great misunderstanding or radical wrong which someone fears to bring to light by making the recommendation or appointment. But the greater the delay, the greater must be the disappointment, if any, and we can see no object in it as all must come to light sooner or later, and the censure, if any, rest where it belongs, and the whole people are becoming more and more disgusted with what seems so much unnecessary delay.

"The situation here has been fully explained to both the president and Mr. Cooper, and in justice this community, regardless of what our party is suffering from the jeers of the democrats from this seemingly childish bickering, they certainly owe us some kind of a positive settlement of this question at once. In the early part of the presidential campaign, we publicly announced ourself a candidate through the columns of our papers, providing Mr. McKinley was elected, believing that we were at least as much entitled to this position as any other, basing our claim upon the facts that this has been our home, for over forty-one years; all that ourself, family and family relatives had accumulated by hard honest toil has been used here for the building up and benefit of this place from its very first settlement. All other candidates are comparatively new comers.

"When the civil war broke out, as soon as our age would permit, we enlisted in the Union army to the credit of Evansville and served our term of enlistment, from which we hold an honorable discharge. In the service we are disabled for life so far as the performing of physical labor is concerned and were obliged to resort to some occupation which did not require this, therefore have published two weekly papers here for about eighteen years and are still continuing the same for the best interests of this place and the republican party. But rather than to see our party and party friends further humiliated by such childish nonsense, we will forego all of what we believe to be our well founded claims as well as the many high endorsements of our friends, for all of which we are very thankful, and heartily say Amen to the appointment of any sound republican candidate, who helps by tax or vote to sustain this administration."

SPRING GOWN OF CHEVIOT FROM HARPER'S BAZAR

Already people are beginning to think about making up their spring gowns. Cheviot is the material which seems to meet the first demand, and there are several different styles in which it is used. One design is made with a skirt which has the effect of an apron and very narrow front; the waist is in basque fashion, shorter at the back, considerably than it is in front. The front turns over in double revers, on the upper of which

is a pattern of braiding. There is a pointed vest and stock-collar of white silk laid in tucks, and below this yoke is a vest of black satin. The correct cut of this gown can be obtained from the cut paper pattern issued by Harper's Bazar, where it appears. The contrast of the white against the black is very good, and makes the gown more becoming than it otherwise would be. The sleeves are of medium size, finished very plainly at the hand.

### ADOPT JANESVILLE IDEAS

Waukesha Men Profit By Inspection of Local High School Building.

Members of the Waukesha common council who recently visited and inspected our High school building and who afterwards recommended the erection of a \$25,000 school building at Waukesha, have had their report adopted. The report of this special committee on education was at first laid over when first presented and for a time it was doubtful as to its passing the council. Several ideas gained in the visit to the Janesville school will be carried out in the erection of the Waukesha building.

## SOCIAL NEWS NOTES OF LOCAL IMPORT

WHIST CLUB AT "GERMAN  
SUPPER."

Mr. and Mrs. H. W. Frick Entertain the I. M. C. Organization in a Decidedly Novel Manner—First of Court Street Church Entertainments—Y. M. C. A. Lecture Course.

It is doubtful if ever the members of the I. M. C. whist club spent a more unique and enjoyable evening than they did last evening at the Fifth avenue home of Mr. and Mrs. H. W. Frick. When the guests arrived they were greeted by a genuine "little German band" that was stationed without and discouraged music as only such bands can. The interior of the house was profusely decorated with the colors of the Fatherland blended with the flags of the United States. The menu was strictly Deutschland although pretzels and sauerkraut were served in abundance the tables were not lacking for all the delicacies of the season. Members of the club on their departure voted the occasion one long to be remembered and praised Mr. and Mrs. Frick warmly as entertainers.

Talked of Gas.

A very enjoyable social was given at the Court Street church parlors last evening, being the first of a series in which Janesville business and professional men will speak. Last evening, I. F. Wortendyke, superintendent of the New Gas Light Co., told how gas was made, illustrating his address on a blackboard. The local plant, he said, was a fine one, and the piping was laid better than any he had ever seen. The work had been so thoroughly done that the leakage was less than 3 per cent. The United Gas Improvement company, who managed the Janesville plant, owned systems in many cities, but none of them were as well constructed as the Janesville system. Mr. Wortendyke explained the workings of the meters, and his talk was of exceptional interest. He was frequently applauded.

During the evening two musical numbers were also given, an instrumental trio being very fine. It was given by Miss Leona R. Stevens, cornet; Miss Mamie Hillbrandt, violin; Miss Mae Hyde, piano. Miss Stevens also played a cornet solo, Miss Hyde playing the piano accompaniment.

The Y. M. C. A. Concert

A delightful concert was given at the Y. M. C. A. building last evening, the entertainment being one of the regular course. Musicians from the State School for the Blind were the performers, and they won new laurels. The selections by the orchestra were rendered with the usual finish, while the singing of the quartette was a marked feature. These two organizations give a much better entertainment than many of the traveling companies. The next entertainment of the course will be the lecture by Rev. J. B. Silcox, which will be heard on March 1.

Mrs. Burnham Entertains.

Mrs. A. P. Burnham entertained most charmingly last evening at a six o'clock tea at her home, 353 St. Lawrence Place. After tea, the card tables occupied the attention of the guests, and the occasion was one of much pleasure for all concerned.

Surprise Mr. and Mrs. Sayre.

A delegation of Janesville young people drove to the home of Mr. and Mrs. Sayre in the town of Fulton last night and gave them a surprise party.

Verein Holds a Dance.

Bower City Verein met last night and a social dance followed the lodge work.

## LIVELY SENATORIAL DEBATE.

Opinion Expressed That Spain Has Been Given Her Full Limit of Time—Wolcott and Senator Lodge Reply—To Raise the Warship.

Washington, Feb. 19.—Both houses of congress Friday passed an appropriation of \$200,000 for raising the Maine, as requested by the navy department. In the house the resolution was passed without incident, but in the senate it indirectly gave rise to one of the most exciting debates seen in that body this winter.

After the appropriation had been passed the Allen resolution providing for an investigation by the naval committee of the senate came up for consideration. Mr. Mason proposed to amend it so that a special joint committee of three representatives and two senators should be appointed to conduct the inquiry. Several senators pointed out to Senator Mason that his resolution involved doubt of the good faith of the navy department officials, and that the expression of such doubt was an improper thing at this juncture.

Mr. Mason stoutly defended his motion. He said the people lacked confidence in some of the departments of the government.

When Mr. Mason offered the amendment Mr. Hale urged him to withdraw it, as it would tend to embarrass the executive department. Mr. Mason responded in a speech replete with sensational utterances. He said: "The people are fast coming to the conclusion that matters concerning this Cuban affair, including the De Lome letter incident and the loss of the Maine, of which they ought to know, are being concealed from them. The people want to know the facts, and they will know them."

Mr. Mason said he did not desire to reflect upon the motives or honor of anybody, but he suggested that the officials of the navy department, in making their investigation, would be trying their own case, and would naturally endeavor to cover up any blame that might attach to them. With great vehemence he continued:

"The trouble with us is that we have adopted the Spanish policy of putting everything off until to-morrow. Let this disaster to our navy and to our country be thoroughly investigated by congress and then we shall know that it will be done right. Let the people have the facts. They want nothing less than investigation in their interest by the senate and the house. Only in this way could the facts which are locked up in the departments be gotten out."

"We have already waited too long. We were told three years ago to wait. We have waited until night has followed day, winter has followed summer, and time has gone on while the terrible cruelty continues. In the meantime Spanish diplomats have sat at our tables and partaken of our hospitality while we are still waiting and have continued to wait until the series of calamities has been crowned by the Maine catastrophe, with its loss of 250 precious American lives. We want an investigation, and we want it now—now, the eternal and everlasting now."

Mr. Hale here interrupted Mr. Mason to make a statement. He said he thought the senate could reasonably wait a few days until the results of the naval investigation could be given to the public. He hoped the senate would see the propriety of not making this an occasion for inflammatory speeches, and that all would take the view that in the presence of the great calamity which had befallen this country to-day was not the proper time for an appeal to passion and prejudice.

Senator Wolcott of Colorado challenged the statements of Senator Mason and asserted that the people had absolute confidence in every department of the government, and especially in the navy department. He paid an eloquent tribute to the American navy, which had always faced the foe in war and won great victories.

Senator Lodge, Senator Hale, and Senator Hawley defended Secretary Long and urged that this question be not pressed to the embarrassment of the administration.

Senator Mason contended that he had made no attack upon the secretary of the navy, but that he spoke the truth when he said that the American people had lost confidence in some departments of the government, and that it was time to restore that confidence by investigating this Maine affair and allowing the people to know the whole truth.

Mr. Hale remarked that under the rules the resolution would go to the calendar.

## To Commemorate Their Memories.

Washington, Feb. 19.—Before the senate went into executive session Friday Mr. Bacon introduced the following joint resolution: "Resolved, That there shall be prepared under the direction of the secretary of the navy and placed upon the wall of stately hall in the Capitol building a bronze tablet commemorative of the officers and men of the United States navy who perished in the loss of the battleship Maine in the harbor of Havana Feb. 15, 1898. The said tablet shall contain the names of said officers and men and shall be an enduring memorial to their honor and a perpetual token of the sorrow of the nation." It was referred to the committee on naval affairs.

## HIGH HOMAGE TO BE PAID.

Expressions of Condolence Have Been Received from All Parts of the Civilized World—Mrs. L. M. N. Stevens Now Acting President.

Chicago, Feb. 19.—Funeral services for Frances Willard will be held in New York on Sunday, and in Evanston Thursday. On Wednesday her body will lie in state in Willard hall. The hundreds of white ribbons in the city and all the thousands of friends everywhere who perhaps never had an opportunity of seeing her in life, will be invited to do homage to her in death, in the hall which is one monument to her.

All day yesterday telegrams of condolence and inquiry came pouring in to the Temple headquarters.

The death of Frances E. Willard leaves the affairs of the World's and National Woman's Christian Temperance unions in a precarious condition. Lady Henry Somerset, now the president of the world's organization, is an invalid, in the care of nurses and physicians, at Eastnor castle, England. In addition to this, Lady Somerset has been repudiated, in a sense, by the British association on account of the stand she took on the social-purity question. She does not possess the entire confidence of either her society at home or of the unions in America.

The unions here are split up hopelessly on the advisability or non-advisability of giving up the Temple. Mrs. Carse and others yesterday expressed the opinion that the death of Miss Willard would have a tendency to unite the scattered factions in a brave fight to save the Temple as a lasting monument to Miss Willard and her life work.

Mrs. L. M. N. Stevens of Maine, elected vice-president, succeeds Miss Willard as national president. She is well known as a woman suffragist and temperance leader. She was born in Dover, Me., in 1844, and was chosen treasurer and later president of the W. C. T. U. of that state, after Miss Willard organized the branch in 1874. For thirteen years she was assistant recording secretary of the National W. C. T. U. and at the Cleveland convention in 1894, on nomination of Miss Willard, was elected vice-president at large.

When in 1876 Miss Willard introduced into white ribbon ranks the discussion of the ballot for woman as the most helpful method of temperance reform Mrs. Stevens led the arguments in favor of her leader for four years in the great conventions. She was one of Miss Willard's closest personal friends.

## Miss Willard's Last Moments.

New York, Feb. 19.—Watchers around Miss Willard's bedside did not give up hope until 7 o'clock at night, when she sank into a deep sleep from which she never awoke. During her last conscious moments she realized that death was approaching, and as Miss Gordon, with tears in her eyes, leaned over the bed, talked with her about the hereafter and her faith in God, Miss Willard's voice grew weaker and finally, when her last sleep was stealing over her, she raised herself a little in the bed and whispered: "How beautiful it is to be with God." Then as her head sank back on the pillow a smile brightened her face and consciousness, so far as outward appearance showed, left her.

## All Express Their Sorrow.

New York, Feb. 19.—The body of Miss Frances E. Willard, who died early Friday morning, lies at the home of her niece, Mrs. Woodward W. Baldwin, No. 85 Clinton place, who is her nearest relative in this city. The officers of the Woman's Christian Temperance Union were busy all Friday at the Imperial hotel, where she died, receiving telegrams of sympathy and condolence. The temperance organization of nearly every state sent its sympathy.

## SHORT NEWS STORIES.

Eight Little Marks In His Watch—The Queen's Gold Spoon—The Missing Gentleman From Ohio.

"What are all these funny little marks in your watch, Cousin Charley?" asked the bright little girl who sat in the young man's lap playing with his gold timepiece.

"Eh? Let me see," said the young man, taking the watch from her and blushing.

The little girl's father looked at Cousin Charley and winked. "Let me see, too," he said.

Inside the back cover of the watch were several little, shiny spiral marks that looked as though the gold had been rubbed hard.

"Eight times, eh?" said the little girl's father. "Been hung up quite regularly, hasn't it?"

"What do you mean?" asked the puzzled little girl.

"Seem to have been there yourself," remarked Cousin Charley. "Twice a year. Once in the spring and again in the fall."

"Overcoat time, I see," his uncle said, nodding understandingly.

Now, the fact of the matter was this: Inside the back cover of the watch were eight little round marks made by acid.

They were made by pawnbrokers to test the quality of the gold when the watch was presented for a loan. The pawnbroker dipped the frazzled end of a match in acid and scrubbed at a place in the gold. If the acid made no impression, the gold was all right and he made the loan. If the metal had bubbled and frothed slightly where the acid touched it, the case was not gold and the loan was refused.—Kansas City Star.

## The Queen's Gold Spoon.

A curious story is told of how one of Queen Victoria's smallest gold spoons was lost and found.

A lady attended a state ball in a dress the skirt of which was arranged in perpendicular plaits in front, stitched

## THE GOLD SPOON FELL AT THE QUEEN'S FEET.

across at intervals, and, unknown to her, a gold teaspoon got lodged at supper in one of these receptacles. Of course there was one spoon missing after the ball, and the fact caused great perturbation to the official in charge of the gold plate.

The next spring the lady went to a drawing room in the dress she had worn at the state ball, and as she bent low before her majesty the plaits of her skirts expanded, and the gold spoon fell at the queen's feet.—Nuggets.

## Reed and McKinley.

A story is told about Mr. Reed in the Fifty-first congress, Major McKinley being one of the characters concerned. It will be remembered that Major McKinley was then chairman of the ways and means committee and the floor leader of the majority. The McKinley bill was under discussion, and there was an understanding between Mr. Reed and Mr. McKinley that at 3 o'clock on that day a motion should be made for the committee of the whole on the state of the Union to rise.

The hour of 3 o'clock came and Mr. McKinley was nowhere in sight, having gone to the committee room for a brief time to attend to some other business.

"The gentleman from Ohio," said Mr. Reed, interrupting the proceedings, "moves that the committee do now rise." Then, with another hasty glance about the house, he added, rather forcibly, but in an undertone: "Where in the d—l is the gentleman from Ohio?"—Washington Post.

## SEPTICIDE

AFTER DOCTORS FAILED.

Here you have the evidence right at home from one of your own citizens.

"I wish I had a voice which could be heard throughout the length and breadth of this continent, that I might speak to the army of sufferers who are being tortured by the disease with which I have been afflicted for years. I have been an intense sufferer for several years and everyone who has had that disease knows the extreme agony I must have endured. Itching, burning, scratching, digging and loss of sleep has been my deplorable condition. Four of our best physicians had exhausted their energies on my case, without even giving me relief. Oh, what a godsend to me when one of our druggists called my attention to that wonderful remedy, Septicide, and assured me that it would do what skillful hands had completely failed in doing. Suffice it to say that two bottles cured me completely, so there is no return of this dreadful complaint."

## THE FUNERAL PLANS FOR MISS WILLARD

### THREE FUNERALS ARE TO BE HELD

First on Sunday at New York, Second at Willard Hall on Wednesday, and Third at Evanston Thursday Afternoon, Where the Interment Will Be Made.

No less than three formal funeral services will be held over Miss Willard's body. The first will be on Sunday in New York, the second will be in Willard hall on Wednesday, the third will be at Evanston on Thursday afternoon. The most solemn of all will be in the town which she herself was the first to call "classic Evanston," in the town where stands Rest cottage, the home for which she longed often during her last weary years, but which had not sheltered her for over three weary years. The body will rest at the cottage for a few hours if the desires of the townspeople are considered. Though she belonged to the world, Evanston was more her home than any other city, and the residents of the suburb have always believed that their claim on her was superior to any other. Northwestern university, of which she was first a graduate and later an instructor is there, and there too her parents, her mother and her sister died.

Last Rites in Evanston.

The services will be held in the First Methodist church, of which she remained a member to the last and in which she worshipped less than six weeks ago. Details have not been completed. It was not known last night who would conduct the services in Willard hall or at Evanston. Rev. Dr. Frank M. Bristol, pastor of the First Methodist church, will undoubtedly be a chief officiating clergyman, and Bishop Merrill of the Methodist church will probably also assist. Both were close friends of Miss Willard and the former was long her pastor.

The First Methodist church is the largest church in Evanston, having a seating capacity of upward of 3,000 people, and the belief was expressed yesterday that it would be an satisfactory as if it could contain five times that number. It is well understood that no church would be large enough to shelter the throng sure to attend the funeral and that an overflow must be expected.

In the Open Air.

Miss Willard's friends would like to have the services conducted in the open air on the campus of Northwestern university, but they were deterred yesterday from voicing the wish by the knowledge that the exposure would probably cause additional deaths.

"God was good to our dear friend and leader," said Miss Helen Hood state superintendent of the temperance union, "and the sorrow and complaint are for us. We could wish that she had passed away when the air was fragrant with the flowers of May and that the last honors could be paid to her in the open air, with the green leaves above and the fresh grass below. She loved Evanston for its trees and her last journey there will be made while the trees are bare. We shouldn't think of those things, I suppose we do."

Many Will Pay Tribute.

It is certain that a chance will be offered at the funeral for anyone to pay tribute to Miss Willard. In particular the women who have been associated with her in the Woman's Christian Temperance union, will claim opportunity of paying personal honor to the dead. One speech, that of Mrs. Matilda B. Carse, will bear with it a sense of deepest pathos. Many years ago Miss Willard and Mrs. Carse crowned a devoted friendship with the mutual promise that when death should come between them the survivor should stand over the bier and speak for the dead.

Interment at Rosehill.

The interment will be at Rosehill, where in the family lot repose the bodies of the four she loved best. The last of her family she will rest beside them, the request which she has always made imperative when discussing the disposition of her body. A rumor gained credence in Evanston yesterday to the effect that her will read that she was to be cremated. J. O. Shaffer with whose family Miss Willard made her home when in Evanston, and A. W. Kimball, the friend who occupies Rest Cottage, denied the report.

Gloom mantled the offices of the Women's Christian Temperance union in the Temple yesterday. Mrs. Carse and Mrs. Kate L. Stevenson, national secretary, received all callers and opened all telegrams, most of which came addressed to Mrs. Stevenson.

THE agents of Stock Fire Ins. Co's. are reporting that the Citizens Mutual are looking for a stock company to take their business. The Citizens Mutual wish to say that such is not the case—that they are now, at nine months old, carrying nearly \$300,000 of insurance, (nearly \$100,000 of it in Janesville,) and are in best possible shape to go right ahead with their business. They have been instrumental in saving at least \$20,000 annually, in premiums to the people of Janesville, by the sudden drop of stock rates on business risks May 4 and on private dwellings Oct. 9 of 20 per cent. Besides on what you carry with them you only pay two-thirds what you paid to stock companies in '95 and '96. You can certainly afford to carry part of your insurance with them. Office at Ceylon tea store, 38 South Main street.

## A PANE OF GLASS CAUSED THE SUIT

### LEONE GHERKE IS FOUND GUILTY.

Thoms a Bowles Charges Him With Malicious Mischief—Costs in the Action Run Up to Fourteen Dollars—Some Other Police Court Cases.

A ten cent window pane was the cause of a law suit that occupied the municipal court the morning the case being that of the State of Wisconsin vs Leone Gehrke. The defendant was found guilty of maliciously breaking a window in the Bowles & Hadden barn at the corner of Bluff and North First streets and was fined \$2 and costs or a total of \$14.

And all over a 8x11 pane of glass that originally cost 10 cents.

Thomas Bowles was the complainant in witness and in his complaint alleged that the Gehrke boy had on several occasions maliciously thrown stones against the Bowles & Hadden barn. The boy himself, who is but thirteen years of age, admitted breaking the window, but he said that he at once secured another glass in its place.

When the case was called this morning several witnesses were put on the stand and some of them testified that they at different times saw the boy throw stones at the barn but no one seemed to see him break the window in question.

District Attorney W. A. Jackson appeared for the state while T. S. Nolan of Sutherland & Nolan represented the defendant.

Three Farmers Jailed.

Thomas Cummings, John Dohansy and John Crook, three farmers of the town of Harmony, hatched up their favorite team of steeds last evening and drove to town "just to have a time." After visiting the majority of "watering places" in the city they decided that there was no town like Janesville and all three agreed to remain all night. The greater portion of their time they spent on the business streets and although repeatedly warned by Officer Brown to go home, they paid little attention to his command. At 6:30 o'clock this morning the trio, after making a night of it, brought up at the corner of Main and Milwaukee streets where they ran up against Officer Brown.

Officer Brown, with the assistance of Alva P. Russell, then marched the trio to jail. In the municipal court this afternoon all three were arranged, charged with being drunk.

The trio pleaded guilty to drunk and disorderly conduct and were each fined \$2 and costs or a total of \$3 which they paid.

Keller Locked Up

Joe McDonald, a Beloit drunk, who prides himself on the fact that when he gets drunk he can yell so that he can be heard a mile away, is now in the Rock county jail serving out a five day drunk sentence. McDonald was brought to this city yesterday by Marshal Appleby.

Turnkey Brown says that it is safe to say that McDonald will not be given a chance while here to try his voice.

## PLANS TO BUILD A CHAPEL

Rev. Mary Kimball May Erect a Building at the Mission.

Rev. Mary Kimball is now making preliminary preparations for the erection of a chapel to be built as an addition to her mission home at 106 South Jackson street. One thousand dollars is needed and to raise this amount of money is a problem that is at present bothering Miss Kimball.

"Adjoining my house is a strip of land 26 feet wide and 50 feet deep that I will gladly donate for a location," said Miss Kimball, "and as I have a man who has promised to do the excavating work free of charge and a lady who will give \$100 toward the building I think that I have a good start towards securing the chapel."

Rev. Kimball now reports a Sunday School attendance of 138 children.

## THE "ONLY SOUSA" AND HIS BIG BAND

### CHARMING CONCERT AT THE OPERA HOUSE.

Noted Musician and His Trained Men Appear in Janesville—Fine Entertainment But John Philip Was the Central Figure—The Soloists Were All Very Fine.

John Philip Sousa and his band charmed a Janesville audience this afternoon at the Myers Grand. In spite of the inclement weather the majority of the seats were reserved and not a few people were present from Beloit, Edgerton and Evansville.

The concert was a rare musical treat. At 2 o'clock the only Sousa with baton in hand, gave the signal for the opening number.

Maud Reese Davies, the soprano, rendered a number of selections that were most pleasing.

Her voice is as clear as a lark's, and it is quite evident that it has been put through a sieve of training under skillful masters.

As a violinist James Hoyle charmed those present with several selections that were most pleasant.

The concert as a whole proved, as was expected—a rare musical treat. The band arrived at noon from Rockford and left at 4:40 for Madison where they play this evening.

Sousa Is Popular.

Sousa had with him fifty odd capable musicians. It was, however, Sousa; all Sousa; it's the man and the man's composition that entrance the people. Mr. Sousa is a great director of men, and his players are necessarily good musicians. There is something in the human soul that responds to march time, and Sousa is a breathing quickstep. Naturally his training in the service, his practice in martial music and his effects in brass have materially assisted Sousa to cultivate that genius he possesses for rhythm, for movement and for time. Life is a melodious swing to Sousa, and with the aid of fifty other swingers he gets a nation on the sway. Then there is Sousa's personality. It is unique. He conducts his musicians as no other conductor does. He has them accustomed to his fancies and idiosyncrasies, and the tip of his finger means a whole sentence.

Sousa is great in perfect simplicity. He is acceptable because unaffected. He is popular because obliging. He writes music that a boy can whistle as he walks along the street, and march to his own whistling; and when a man has a nation on the march and on the whistle, he's made. Sousa has a quaint name, quaint methods; he is temperate, upright, honest, kindly, a gentleman. All these things are the secrets of Sousa's success. It is the swinging, awaying, willowy everything, from his vowelized name to his vowelized music that has the country going backward and forward like a pendulum.

## NEWS FROM THE MORNING PAPERS

Havana, Feb. 19.—All day Friday boats were towing bodies ashore from all parts of the harbor. The bodies now recovered number 125. The following have been identified: Barry, Conroy, Curran, Codes, Henneker, Fuchs, Hughes, Harty, Gross, Sellers, Just, Holland, Boyle, Horne, Scully.

Most of them were identified only by the clothing or uniform. Almost without exception they had sustained severe wounds.

The Spanish authorities object to American divers examining the ship unless accompanied by Spanish divers. The Spanish claim this right as the ship sunk in Spanish waters.

Late last evening Capt. Sigbee carried his point concerning the divers, and they will go down as soon as they arrive. The Spaniards wanted to make a joint investigation, but Sigbee insisted on independent action.

The Spanish said their reason for asking a joint investigation was to clear themselves of any chance of blame in the matter. Consul General Lee and Capt. Sigbee went to the palace and the matter was finally amicably arranged. If the United States government agrees the Spanish may be allowed to send men down also. Capt. Sigbee will personally direct operations, and no outsiders will be allowed within the patrol.

Eight of the crew died in the hospitals Friday.

### HAS NO SECRETS.

Secretary Long Denies Many War Rumors.

Washington, Feb. 19.—The feature of the day at the navy department Friday was the large number of rumors of a warlike tendency that came to the attention of the officials as requiring attention, and in every case contradiction. So formidable had grown the list that at the close of office hours Secretary Long was induced to make the following statement as the easiest manner of disposing at one time of all these stories.

"Really no information has been received since Capt. Sigbee's first dispatch adding anything to our knowledge of the disaster. All we know is that the Maine blew up. There is abundant room for speculation of all sorts, but no conclusion can be arrived at until an examination has been made by the divers and more facts obtained.

"It is a simple act to say that such a thing might happen by design or it might happen by accident. As yet there is no indication of design. Therefore, my impression has been all along, and I rather think the general opinion preponderates in the same direction, that it must have been accidental."

### BACHE GOES TO HAVANA.

Carries a Diver to the Harbor Who Will Investigate the Wreck.

Key West, Fla., Feb. 19.—People here are still of the impression that the Maine was blown up by a torpedo. All who have been spoken to here about war said the Cubans in Key West would offer to the United States government their services in case of war with Spain. The tender Bache sailed to Havana Friday. The diver, Mr. Martin, was on the boat and soon will report on the cause of the sinking of the Maine.

The report that the entire fleet has been ordered to Key West has created great excitement here. It is said also that a British warship will arrive tomorrow morning.

### TIME FOR DECISIVE ACTION.

Ex-Postmaster General Key Talks Strongly on Maine Disaster.

Chattanooga, Tenn., Feb. 19.—Judge D. M. Key of this city, postmaster general in President Hayes' cabinet and ex-United States judge, expressed himself strongly on the disaster to the Maine. He is quoted as follows:

"If the catastrophe can be traced to any Spanish officials or any subjects claiming allegiance to Spain, I think the United States should demand indemnity, and use any necessary measures to collect it without delay. No dilatory tactics should be employed with Spain in a matter of this kind. No amount of money can pay for the lives lost, but the American people will demand some heavy compensation for the disaster and will not rest until they get it. The time has come for decisive action."

### Believes It Was an Accident.

Washington, Feb. 19.—The opinion of one of the leading naval experts in the use of high explosives, Professor Alger of the ordnance bureau, as to the cause of the explosion, is as follows: "As to the question of the cause of the Maine's explosion, we know that no torpedo such as is known in warfare can of itself cause an explosion of the character of that on board the Maine. We know of no instances where the explosion of a torpedo or mine under a ship's bottom has exploded the magazine within. It has simply torn a great hole in the side or bottom, through which water entered, and in consequence of which the ship sunk. Magazine explosions, on the contrary, produce effects exactly similar to the effects of the explosion on board the Maine."

### Spanish Press Suspicious.

Madrid, Feb. 19.—The newspapers here are urging the government to adopt great precautions when the American

divers arrive and not to allow them to descend alone and examine the Maine, "as divers sent by private persons might be bribed to report at variance with the actual facts and might even do something to the hull which would serve as a confirmation of their report." Here it is thought improbable that Captain General Blanco will allow private divers to descend, or even those sent officially by the United States government, if they are unaccompanied by Spanish divers. The newspapers here claim to foresee the necessity for employing divers of different nations to arbitrate in the event of a disagreement between the Spanish and American divers.

### Magazines Are Still Intact.

New York, Feb. 19.—Cable advices from Sylvester Scovel at Havana state that Capt. Sigbee yesterday inspected the wreck of the Maine. All evidence seems to point to the fact that the magazines of the big warship are still intact. It has been found that its gun-cotton is unexploded, as is also its ten-inch ammunition. The explosion evidently took place amidships on the port or left hand side of the vessel. One hundred and thirty-five bodies have been recovered.

### Cabinet Talks of the Maine.

Washington, Feb. 19.—The only absentees from Friday's cabinet meeting were Secretaries Sherman and Alger. During the meeting the disaster to the Maine was the principal topic of discussion. Secretary Long read a cablegram from Captain Sigbee giving an account of the funeral of nineteen victims of the explosion. It appears that unusual and in some respects extraordinary evidences of sympathy and respect were shown by the Spanish authorities and people.

### To Secure the Maine's Papers.

Washington, Feb. 19.—Certain papers in the hull of the wrecked Maine, and secret efforts are being made by the Spanish authorities to get possession of them. Equally great energy is being used by Secretary Long and Capt. Sigbee to prevent them from falling into the hands of the enemy. What the papers are is pure matter of speculation. President McKinley and Secretary Long know their character and the Spanish army officials know of their existence and importance.

### Recovering the Bodies.

Havana, Feb. 19.—Although the work of clearing the sunken Maine of debris and recovering the bodies has been delayed by numerous causes there will be assistance from the squadron today, and the work will proceed faster. No investigation of the cause of the disaster is yet possible. The burials are progressing rapidly with great help from the authorities.

### Speaks for Spain's Ruler.

Washington, Feb. 19.—President McKinley Friday received Senor du Bose, charge d'affaires of Spain, who had been commanded by the queen regent of Spain to bear in person to the president her expression of profound sorrow over the calamity to the Maine. The message was brief and heartfelt, expressing the sorrow of the queen and her people.

### Rush Work on Torpedo-Boats.

Providence, R. I., Feb. 21.—The Herreshoffs have received an urgent request from the navy department to rush work on the three torpedo-boats which they are turning out for the government, and desperate efforts are being made to have them ready within a month.

### The President's Position.

Washington, Feb. 19.—Until facts are shown to the contrary it is announced the president will assume that the explosion came from within and was not the result of treachery on the part of anyone.

### Gladstone Expresses Grief.

London, Feb. 19.—The Daily Chronicle has secured from Mr. Gladstone the following message for America: "I am deeply grieved at the sad loss the American people have suffered."

### Would End the War.

Cincinnati, Feb. 19.—The Cincinnati Chamber of Commerce, amid scenes of excitement, passed a resolution calling upon the President and congress to end the war in Cuba.

### Troops for Coast Fortifications.

Washington, Feb. 19.—Regular troops of the United States are being sent to the fortifications on the coast.

It is not often that a physician recommends a patent medicine; when he does, you may know that it is a good one. Dr. J. P. Cleveland, Glascow, Va., writes: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my practice and it has proven to be an excellent remedy, where a thorough course of medicine has failed with me. I recommend it to my patients every time for colic or diarrhoea." Many other progressive physicians recommend and use this remedy, because it always cures and cures quickly. Get a bottle and you'll have an excellent doctor in the house, for all bowel complaints, both for children and adults. For sale by People's Drug Co., East Milwaukee street.

## THE TRADE REVIEW.

War Talk Has Not Affected the Week's Business.

New York, Feb. 19.—R. G. Dun & Co.'s Weekly Review of Trade says: "The dreadful disaster to the Maine, much as it has affected all hearts, has not much affected business. Only in the stock market was an effect felt. An advance of 10 per cent in wages by some Gogebic mines is expected to be general throughout the lake region, excepting the Mesaba district, and prices of ore from the other ranges this year have been advanced 15 per cent, with an allotment of 6,000,000 tons outside Carnegie mines, which betokens an output much the largest ever known.

"Cotton has held unchanged for spot, although a little lower for options. The iron production is at present greater than the consumption. Minor metals have advanced. In cotton manufacture production is restricted by strikes, and some grades are a shade dearer. The recent opening of higher-grade woolens at advanced prices meets less demand than was expected, with less activity in lower grades and unexpectedly numerous cancellations in light weights, indicating larger buying than consumption has yet warranted.

"Failures for the week have been 295 in the United States, against 303 last year, and 35 in Canada, against 53 last year."

### To Nominate a State Ticket.

Indianapolis, Ind., Feb. 19.—Indiana Populists will convene in this city Tuesday to nominate a state ticket. The gold Democrats will meet to decide whether or not to put a state ticket in the field; and the prohibitionists will meet to set a date for a state convention. N. H. Mottlinger, chairman of the state committee, says there are 30,000 Populists in the state, and they are determined to have an independent ticket, but he has many powerful opponents who lean toward the Democratic party, and out of this difference trouble may grow.

### Chaos in the Chilcot Pass.

Seattle, Wash., Feb. 19.—L. W. Nestle, who has arrived here from Dyea, Alaska, on the steamer Queen, says: "For the past month men have been pouring into Dyea by thousands. There is a congestion of freight along the trail and at Dyea. The Chilcot Railroad and Transport company railroad is completed, but has been unable to run for several days, because men were unable to live on the summit of the pass. The chaotic condition of things can not be conceived by those who have not seen it."

### Three Killed in a Wreck.

Hubbard, Iowa, Feb. 19.—One of the worst railroad wrecks ever seen here took place Thursday night. Two heavily loaded freight trains collided on the switch, demolishing two engines and killing Engineer L. Hollander and Fireman W. E. Osborn, Eagle Grove, and Will Cross, brakemen. The loss will aggregate \$50,000. The east-bound train, running twenty miles an hour, had the right of way. The west-bound train, instead of running into the switch, pulled past it to back in.

### Engineer Boiled to Death.

Webster City, Iowa, Feb. 19.—Engineer Lou Hollinger was literally boiled to death at 10 o'clock last night in a head-end collision of double header freight trains at Hubbard, on the Northwestern railway. As he attempted to jump his foot caught in the cab and he was imprisoned in the midst of the wreck. Fireman Osborne jumped, but too late to save himself, and he is fatally injured. The four engines were piled in a heap. Trains were delayed eleven hours.

### Bishop Dudley Declines.

New York, Feb. 19.—Bishop Thomas Underwood Dudley of Kentucky has declined the general secretaryship of the Domestic and Foreign Missionary society of the Protestant Episcopal church, to which he was recently elected, because of opposition to him among members of the society.

### Take 110 Bodies from the Mine.

Boschum, Prussia, Feb. 19.—One hundred and ten bodies have been recovered from the Vereignete Carolin Eng-luck colliery, which was destroyed Wednesday by an explosion of fire-damp. Thirty men are still in the ruins.

### Flachat Death List Reduced.

Santa Cruz de Tenerife, Feb. 19.—Nine more of the crew of the French steamer Flachat, which was wrecked on this island Wednesday morning during a dense fog, have been saved. This reduces the death list to seventy-eight.

### Prepare to Receive Guests.

Salt Lake, Utah, Feb. 19.—At a meeting of prominent mining men preliminary arrangements were made for the international mining congress which will be held in this city beginning July 6.

Mr. F. C. Helbig, a prominent druggist of Lynchburg, Va., says: "One of our citizens was cured of rheumatism of two years' standing, by one bottle of Chamberlain's Pain Balm. This liniment is famous for its cures of rheumatism; thousands have been delighted with the prompt relief which it affords. For sale by Peoples Drug Co., East Milwaukee street."

### For a Monument to Lafayette.

Washington, Feb. 19.—A movement has been set afoot to have the United States erect a monument to Gen. Lafayette in the city of Paris, to be dedicated during the Paris exposition. The projector of the movement is Robert Thompson, who has been assured by the French government unofficially, through M. Picard, that ground for the monument can be secured through the municipality of Paris in case it be deemed inadvisable to erect it over the grave of Lafayette, which is now obscure and almost unmarked.

### Congress of Press Women.

Washington, Feb. 19.—The international congress of press women, the first in the history of journalism, opened here Friday. The meeting is under the auspices of the National Women's Press Association. Among the speakers will be Hamlin Garland, Rev. B. L. Whitman, president of Columbian University, and Frank Mondell of Wyoming. A paper by Congressional Librarian John Russell Young will be read by Mrs. Young. Many members of the women's suffrage convention are in attendance.

### New Counterfeit \$10 Bank Note.

Washington, Feb. 19.—The secret service has discovered a new counterfeit \$10 national bank note. It is on the Hibernia National bank of New Orleans, series 1882, check letter B, Rosecrans, register, Nebecker, treasurer. It is a photographic production of poor workmanship, printed on two pieces of paper pasted together. The coloring is applied only in spots, and no attempt has been made to imitate the silk threads to be found in the genuine.

### Postal Bank Bill Safe.

Washington, Feb. 19.—The investment of postal savings funds formed the chief topic of discussion at yesterday's session of the sub-committee of the house postoffice committee, which is holding hearings on the postal savings bank bills. Representative Lorimer thinks he has satisfied the members of the sub-committee that municipal bonds are safe and wise investments for the postal savings funds.

### To Aid Ice-Bound Whalers.

San Francisco, Feb. 19.—The work of preparing the revenue cutter Corwin for her arctic trip is almost complete, and in a few days she will be ready to start for Alaska, where she goes to supplement the work of the Bear in rescuing the ice-bound whalers. The hull of the Corwin is being heavily sheathed as a protection against the ice.

### Postponed Until Wednesday.

Springfield, Ill., Feb. 19.—When the conference committee revenue bill was reported to the senate and house Friday it was discovered that serious errors had been made, and the measure could not be passed. It will be necessary to send the bill back to the conference committee for correction. It was decided to postpone the vote on the measure to next Wednesday.

### In the House.

Washington, Feb. 19.—Aside from the adoption of the resolution giving the secretary of the navy permission to use \$200,000 in the work of raising the battleship Maine, the day in the house Friday was devoted to a continuation of the debate on the bankruptcy bill.

### Is a Candidate for Senator.

Fort Wayne, Ind., Feb. 19.—It was announced that Col. R. S. Robertson of this city would probably be a candidate for senator to succeed David Turpie. R. S. Taylor of this city has been an active candidate for months.

### A BARBAROUS SURGICAL OPERATION

#### For the Cure of Piles.

Is not only intensely painful, dangerous to life and very expensive, but in the light of modern medical research and since the discovery of the Pyramid Pile Cure a surgical operation is wholly unnecessary. If you have any doubt on this point kindly read the following letters from people who know that our claims regarding the merits of the Pyramid Pile Cure are borne out by the facts.

From N. A. Stall, Ridge Road, Niagara Co., N. Y.: "I received your Pyramid Pile Cure and tested it last night. It did me more good than anything I have ever found yet, and remember this was the result of one night's treatment only."

From Penn W. Arnett, Batesville, Ark.: "Gentlemen:—Your Pyramid Pile Cure has done me so much good in so short a time that my son-in-law, Capt. T. J. Klein, of Fort Smith, Ark., has written me for your address as he wishes to try it also."

From A. E. Townsend, Bensville, Ind.: "I have been so much benefited by the Pyramid Pile Cure that I enclose \$1 for which please send a package which I wish to give to a friend of mine who suffers very much from piles."

From John H. Wright, Clinton, De Witt Co., Ills.: "I am so well pleased with the Pyramid Pile Cure that I think it but right to drop you a few lines to inform you its effects have been all that I could ask or wish."

From P. A. Bruton, Llano, Tex.: "Gentlemen:—The Pyramid Pile Cure has done so much good for me that I will say for the benefit of others that after using only two days I am better than I have been for months."

The Pyramid Pile Cure is prepared by the Pyramid Drug Co., of Albion, Mich., and it is truly a wonderful remedy for all forms of piles. So great has been the number of testimonial letters received by them from all parts of the country that they have decided to publish each week a number of such letters and never use the same letter twice, but only fresh letters will be published.

All druggists recommend the Pyramid Pile Cure, as they know from what their customers say that no remedy gives such general satisfaction.

# The Weakness of a Woman.

*A woman who has suffered eighteen years, who has been cured after a life of misery and lives again in the sunshine of happiness, speaks to other women in words of no uncertain meaning.*

### Just a woman's story.

Not strange because it happens every day, not romantic or thrilling, but just a story of misery and suffering such as only women know.

For eighteen years, Sara E. Bowen, of Peru, Indiana, carried a burden of pain. Night and day, without respite, she suffered the most dreadful experience that ever fell to the lot of woman.

That she did not die is almost beyond belief.

That she is well to-day is a miracle.

Mrs. Bowen's trouble requires no description beyond the symptom, which every woman will instantly recognize.

In describing them Mrs. Bowen says: "For eighteen years I suffered with weakness peculiar to my sex."

"I was a broken down piece of humanity; a shadow of a woman."

"My brain was tortured until I could remember but little. I could not sleep or eat and was reduced in weight to a mere skeleton. What little I did eat could not be digested in my weakened state, and caused me untold misery."

"My skin was muddy, my eyes were heavy. I was dizzy all the time and totally unfit for even ordinary housework."

"Doctors prescribed for me without avail. Medicine was recommended and taken in quantity but it did no good."

"Time and time again I was at the brink

of despair. Day by day my trouble grew worse, and dark indeed was the day before my deliverance.

"A friend of mine told me about Dr. Williams' Pink Pills for Pale People and what they had accomplished for others in my condition."

"It was the first glimpse of the sun of happiness through the dark clouds of misery. I bought a box and took them. Even then I felt their effect. I bought more and continued to take them until I was well and strong."

"They liberated me from the most terrible bonds that ever tortured a woman. They brought me new life when death was welcome."

"I recommend them to my friends, and I do not hesitate to say to every suffering woman in the world that Dr. Williams' Pink Pills will cure her."

Dr. Williams' Pink Pills for Pale People are a specific for all forms of weakness. The blood is vitalized and becomes pregnant with the elements of life. The nervous system is reorganized, all irregularities are corrected, strength returns and disease disappears. So remarkable have been the cures performed by these little pills that their fame has spread to the far ends of civilization. Wherever you go you will find the most important article in every drug store to be Dr. Williams' Pink Pills for Pale People.
